### Themes

- Learn the Logo coding language
- To write code in multi-line mode
- To use the repeat command
- To build and use procedures

### Commands

repeat [ <commands to repeat> ]  
e.g. repeat 4 [fd 2 rt 90]

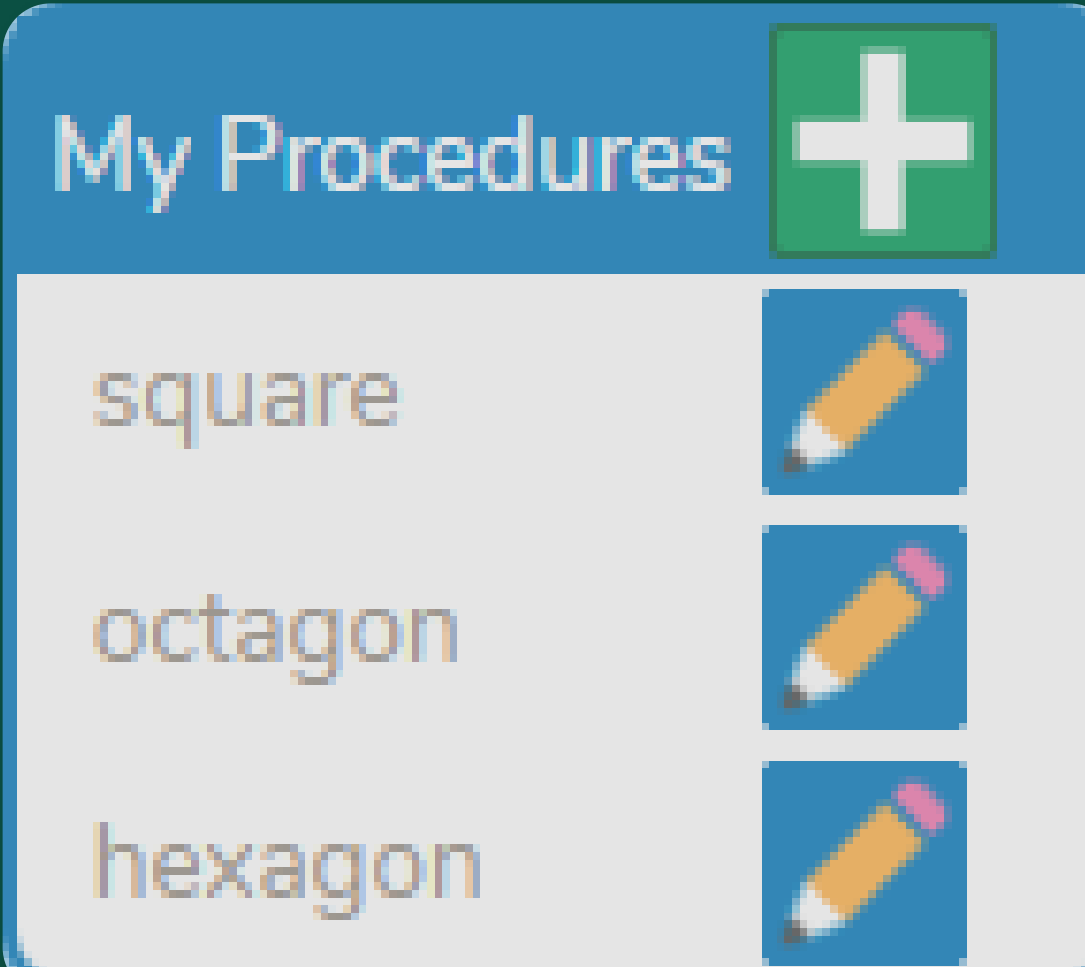

### Repeat

```
FD 5 RT 90 FD 5 RT 90 FD 5 RT 90 FD 5
```

```
REPEAT 4 [FD 5 RT 90 ]
```

### Logo procedure

Named lines of Logo code that can be run by name. You might make a procedure called 'square' that draws a square for example.

### Procedure

Name: square

```
repeat 4 [fd 10 rt 90]
```
